PROFESSIONAL SUMMARY

Senior Quality Analyst with 5+ years of experience in manual and automation testing of web and mobile applications. Strong expertise in Selenium WebDriver, Playwright, Selenium IDE, API testing, performance testing, and Salesforce Lightning. Proven ability to design test strategies, execute high-quality test cases, identify defects early, and collaborate with cross-functional teams in Agile/Scrum environments to deliver reliable and scalable software.

CORE SKILLS

- Agile / Scrum Methodology
- Functional Testing
- Smoke & Sanity Testing
- Execution & Review
- System Testing
- User Acceptance Testing (UAT) Support
- Root Cause Analysis & Risk-Based Testing
- Reporting & QA Sign-off
- Requirement Analysis & Test Planning
- Regression Testing
- Test Case Design
- Defect Tracking & Defect Life Cycle Management
- Integration & End-to-End Testing
- Exploratory & Ad-hoc Testing
- Test Metrics
- Cross-Functional & Client Communication

TESTING TOOLS & TECHNOLOGIES

- Test Management Tools: Jira, Zephyr
- Defect Tracking Tools: Jira, Bugzilla, Mantis
- Automation Tools: Selenium WebDriver, Playwright, Katalon Studio
- Automation Frameworks: TestNG, JUnit (Basic)
- Programming/Scripting: Java, JavaScript (Basic)
- API Testing Tools: Postman, Swagger
- Database Validation: SQL (Basic Queries)
- Browsers: Chrome, Firefox, Safari, Edge
- Cross-Browser Testing: BrowserStack
- Version Control: Git, GitHub
- CI/CD Tools: Jenkins, GitHub Actions (Basic Integration Knowledge)

PROFESSIONAL EXPERIENCE

Senior Quality Analyst

Inheritx Solutions Pvt Ltd

Nov 2022 - Present

Ahmedabad, Gujarat

- Designed and executed test strategies, test plans, and detailed test cases for web and mobile applications.
- Performed manual testing, including functional, regression, smoke, sanity, and usability testing.
- Automated regression and smoke test scenarios using Selenium WebDriver and Playwright, improving test coverage and execution efficiency.
- Executed Salesforce Lightning testing, validating UI behaviour, workflows, and application functionality.
- Logged, tracked, and verified defects using JIRA, ensuring timely resolution and retesting.

Quality Analyst

Hyperlink Info-System

Sep 2021 - Nov 2022
Ahmedabad, Gujarat

- Analysed business and functional requirements to determine testing scope and coverage.
- Created clear, comprehensive, and well-structured test cases based on user stories and acceptance criteria.
- Performed functional, regression, smoke, sanity, and exploratory testing for web and mobile applications.
- Conducted API testing using Postman to validate backend integrations.
- Worked closely with cross-functional teams to ensure quality deliverables across releases.
- Supported release cycles by executing regression testing after defect fixes.

Junior Quality Analyst

Arth I-Soft

Aug 2020 - Sep 2021
Ahmedabad, Gujarat

- Executed test cases for web and mobile applications based on functional requirements.
- Identified, documented, and tracked defects, collaborating with developers for resolution.
- Assisted in preparing QA documentation such as test cases, test reports, and test summaries.
- Supported senior QA members during testing and validation phases.
